MEMO: TO FILE

FROM: PAT BUTENIS

SUBJECT: JOHN SULLIVAN

Alex Pellier (OCS/Welfare & Whereabouts) called to say that he had recently spoken with Donna Igoe. The doctors the Sullivan family engaged to examine the evidence of the Cuscatlan remains are almost certain the remains are those of Sullivan. The family has accepted this finding. As soon as the doctors finish their written report, the Dept. will be notified.

It hasn't been decided yet whether we will have to send the remains to the US or whether someone will come here to collect them.

I relayed the results of my checking the Bermeja records and suggested suspending pursuit of this lead, pending a final decision on the Cuscatlan remains. Pellier agreed.

A cable from the Dept. is on the way.
